FREIGHT

ALL orders FOB Tinley Park, IL.

NON-CATALOGED ITEMS

Our catalog represents the most popular replacement Snowplow Parts. In the event you need something not shown, please call for price and availability. We stock THOUSANDS of parts not shown. Our website lists all OEM Part Numbers at: www.centralparts.com

"OEM" VS. "AFTERMARKET"

Although Central Parts Warehouse is not an Authorized Distributor for all the products listed in our catalog, we stock hundreds of Original Equipment Parts. We have marked all Aftermarket parts by putting an "AM" after the part number. If the part is an original equipment part it is marked "OEM" after the part number. If there is no indicator it is not implied that any other parts in this catalog are a product of the respective manufacturer. We do however, guarantee our parts to meet or exceed OEM quality.

"STORE PRICE"

Due to space requirements in our catalog we no longer publish the "Store" price. Please note Store prices range from 3 to 10% higher depending on the item.

PLEASE NOTE*

Pricing may change as Pre-Season stock is sold out.

BUSINESS HOURS

**** Please note that there is more information on our website, www.centralparts.com, regarding these policies, this is a brief overview.****

SHIPPING POLICY

SAME DAY SHIPPING FOR IN-STOCK ORDERS

- During the season all in stock parts orders placed before 4:00 pm CST will be shipped the same day via UPS ground.
- During the season all in stock equipment orders placed before 10:00 pm EST will be shipped the same day via the available freight company.
- Weight, size, and restrictions apply to shipping charges. Additional charges will apply to heavy or over-sized items that require Freight Truck delivery.
- We ship to all 50 states and internationally.
- All orders \$250.00 and up require signature.

SHIPPING

- Online Orders: When creating online orders please understand that your shopping cart reflects an estimated shipping cost, based on the shipping method you choose. This cost assumes all items in your cart are going to a single address within the contiguous United States. When ordering equipment online some items may require special handling due to their size, weight, and class which will result in an additional charge. When we process your order we will make any necessary adjustments in shipping costs and notify you prior to billing and shipping.
- Phone/Retail orders: We quote your shipping costs based on current rates prices are subject to change over time.
- Refused/Rerouted Incorrect Address Information: The customer is responsible for all return shipping costs as well as any refusal or reroute fees unless in error by Central Parts Warehouse, shipper, or manufacturer.
- International Orders: International orders may incur additional duties and taxes. The amounts for duties and taxes vary country to country. Duties and taxes are to be paid by the customer not Central Parts Warehouse. You can find information regarding this on <https://www.cbp.gov> or on the web.
- Inspect before you sign: NEVER SIGN FOR ANY PACKAGE BEFORE YOU INSPECT IT. When you sign for your shipment you are telling the freight carrier that your shipment is in 100% good condition and all liability is on you at that point. We encourage you to inspect your shipment thoroughly before you sign for it.

CANCELED ORDERS

- If you cancel an order you must contact us before the order ships out to avoid additional fees. Note: orders may ship sooner than expected; we recommend that you do not purchase alternative products until receiving final confirmation of your canceled order.
- Whenever an order gets canceled we issue the customer a "cancellation number", and email the customer a copy of the canceled invoice for your records. (Keep this information handy).
- Once Orders have shipped the only way to cancel is to refuse the shipment; if you refuse the shipment it will be considered a return. You will be charged round trip shipping costs, as well as any re-route fees, a 20% restocking fee, and we will refund you the remaining balance.
- If you are not able to refuse the shipment and you decide to return the items you will be charged a 25% restocking fee and we will refund you the remaining balance.

RESTRICTIONS MAY APPLY

- Please note that shipping costs are not refundable once your order has been shipped.
- Shipping rates are subject to change without notice Residential delivery, lift gate services, ferry service and other.
- Special circumstances may incur additional costs.

RETURN POLICY

WHAT IS THE FIRST STEP?

The first step is to obtain RMA # (return merchandise authorization number) for your return/exchange. Contact us via phone 1-800-761-1700, email (customerservice@centralparts.com), or feel free to stop by our retail center to request a RMA. NO RETURNS will be accepted without a Return Merchandise Authorization number (RMA).

RETURN/EXCHANGE REQUIREMENTS

- Obtain RMA # (return authorization number): We issue your RMA # via phone, email address, or fax.
- Return Deadline: To avoid a lengthy return process orders must be returned within 30 business days of purchase. Any returns after 30 days will be rejected no exceptions.
- RMA Period: Return Merchandise Authorization's will not be accepted outside of 15 days from the date of issue.
- Return Shipping: The customer is responsible for all return shipping costs as well as any refusal or reroute fees unless in error by Central Parts Warehouse.
- Special Orders: Special order items require a non-refundable deposit. Special ordered items are defined as items that were special ordered from our suppliers specifically to fulfill your order.
- The deposit covers fees we have to pay to our suppliers, and the man hours we have lost on canceled orders.

EXCHANGE PROCEDURE

- Option 1 (Slower) - Use the standard return procedure to request an RMA for the part you need exchanged. Upon receipt of your returned product we will process an exchange and ship the new part.
- Option 2 (Faster) - Order the new part online or over the phone so it can be shipped to you right away. Then request an RMA using a standard Return Procedure for the part you would like to return. Upon return of the part a refund will be issued promptly. Any price differences will be adjusted.

IS THERE A RESTOCK FEE?

- A 20% restocking fee will be levied on all returns unless in error by Central Parts Warehouse or one of our manufacturers.

NON-RETURNABLE ITEMS

- There are certain circumstances where we cannot accept returns on items under any circumstances.

**** Please note that there is more information on our website, www.centralparts.com, regarding these policies, this is a brief overview.****

In 1992 Syracuse, NY
tried to make snow illegal.
Mother Nature did not
agree with the new law and
snowed 2 days later.

Each winter in the U.S. at least
1 septillion ice crystals fall from
the sky. That's
1,000,000,000,000,000,000,000
24 zeros!

Nova Scotia holds the record
for the most snow angels ever
made simultaneously.
In 2011 more than 22,000
people plopped down to create
a snow angel.

On Jan. 12, 2013 5,834
snow fighters came
together to create the
largest snowball fight in
the world in Seattle.

What's with the SURCHARGES?

I don't want to assume that everyone is aware of the "Tariff Surcharges" our country is assessing. Most products imported from China and other countries as well have seen significant Tariff Charges. Depending on the product – our suppliers have passed on increases in costs from 1-% to 25%. What started out as "Steel" products only, now includes thousands of imported products. Products from "Aircrafts to Yellow paint are affected!

Hopefully this will briefly explain the complicated process.

As much of the "Purchased Goods" for a snowplow are in fact imported from China or elsewhere it has a direct effect on the cost of Plows, Spreaders and of course all their related parts. Every manufacturer has compensated for this by adding a "Surcharge" to every invoice they send us. As I wright this article, charges vary from a 2.5% to a high as 8%.

Unfortunately CPW is forced to pass the Surcharges on to the purchaser depending on the vendor. We will show the Surcharge separately on the invoice as the charges may fluctuate up or down during the year. Following is the Surcharges by Manufacturer as of 5-30-18. Again this is subject to change up or down and is dictated by the Plow Manufacturer. The good news is our web site and this catalog pricing INCLUDES the Tariff charges for Fisher – Western and SnowEx plows and parts. All other Manufacturers are subject to their surcharge.

Fisher – Western and SnowEx were a flat 2.5% on every Part number, complete plow or Spreader and are included in our published pricing as of 9-1-18. Any new Tariff charges after 9-1-18 will be billed as such.

Meyer and Swenson are 1% on all carbon and non-steel parts. 2% on stainless steel parts - 4% on Carbon steel Plows and Spreaders – 8% on Stainless Steel Plow and Spreaders.

Boss and SnowDogg as of this writing have not announced their surcharge – BUT it is coming!

We apologize for our 2018-19 catalogs being so late in getting out to you as we waited as long as we could to get the latest cost from our vendors.

All other manufacturers' surcharges will be published on our web site as they are announced.

Regretfully,

Bill Nero

President

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

Please Note: Prices are subject to manufacturers surcharge until further notice.
The increase will be added to invoice as the Part Number "Surcharge"

SPECIFICATIONS

- An Extreme Duty H-Beam Design** 14" Push beam for superior support.
- Extra Durable Lower Posts** Bottom support posts are fully welded giving the posts the same strength as a boxed-in gusset support with far less cost. This keeps the post higher off the ground. In case of accidental roll back, the bottom post does not get destroyed.
- Ultra Support Upper Posts** Upper post support tubes eliminate the need for costly channel rolls. They are fully seam-welded and spaced for maximum effectiveness in lending support to the overall strength of the pusher.
- Properly positioned inside posts and 3/8" side plates, help prevent collapsing sides on accidental impact during extreme operation.**
- Toughest Wear Shoes** Wear shoes are made from AR400 steel for far greater wear life than most competitors wear shoes.
- Cutting edge is 1-1/2" x 10" Goodyear rubber compound. The right edge for all your needs.**
- Industry Exclusive Powder Coat Finish** For durability and corrosion resistance.

Snow Fact:

The Mount Baker downhill ski area achieved the world's record for most snow in a single year when 1,140" (95') fell between July 1, 1998 and June 30, 1999. The previous record was 1,120" (93.3') set at Mt Rainier, WA in 1971-72.

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include those replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

COMPLETE PLOW SPECIFICATIONS!

FREIGHT CHARGES:

Use this chart as a guide line. **For exact cost**, please call with your Zip Code. For example – we can ship a 700 lb. plow to almost anywhere in NY for \$189.00 BUT there are certain Zip Codes that could run the cost to \$200.00 or higher. This chart was developed for populated areas. Typically, rural areas are higher – more so in the West. The exception being a NY Borough, which again is typically higher.

	6-1/2' – 7'	7-1/2' – 8-1/2'	ALL 9' & 10'
*East of Ohio	\$278.75	\$307.78	\$357.78
*Iowa to Ohio	199.74	208.78	227.78
*West of Iowa	307.87	328.75	368.88

*Multiple plows dramatically decrease freight costs. Call for an exact quote.
Prices subject to change without notice due to increased fuel surcharge.

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. BUYERS TGSUVPROA SALT SPREADER

TGSUVPROA (Light Commercial Use)

Ideal for residential/light commercial applications.

- Heavy-duty sealed ball bearing 1/6 HP spreader motor with variable speed controller.
- Material flow up to 30 feet controlled from an in-cab variable speed control.
- Ultra-smooth hopper interior and auger fight material bridging by channeling it to the hopper throat and poly spinner, providing an even flow of material without the need of expensive vibration kits.

- Comes complete with all mounting hardware for 2" receiver hitches.
- Dimensions: 40.5" H x 22.5" W x 20.5" D
- Features an attractive and rugged polymer black hopper and orange powder coated steel mounting frame.
- Fold-away feature – simply release hitch pin and spreader folds away for easy access to rear door or tailgate.
- Capacity: 4.413 cubic feet/331 pounds #1 rock salt or similar material.

Part Number: **TGSUVPROA** List Price: \$1,149.00 Mail Order: **\$834.29**

BUYERS TGS01B SALT SPREADER

The **TGS01B** comes standard with a "Permanent" mount system. This simply means the spreader is bolted to the step bumper and also comes with top support arms that bolt to the top of the Pickups bed rails. 600 lb. capacity.

There are two optional Mounting systems available:

"QUICK DISCONNECT" 2" Receiver mount and "SWING GATE" mount systems.

NOTE: The spreader CANNOT be swung while loaded with salt. It will bend the brackets and possibly the truck's bed rails.

Check out page 108 for TGS01B Replacement Parts!

Part Number: **TGS01B** List Price: \$1,327.00 Mail Order: **\$914.67**

BUYERS TGS03 SALT SPREADER

The **TGS03** combines the robustness of an auger-driven V-Box spreader with the simplicity and easy mounting of a tailgate spreader. The open-auger design gives contractors the option to spread a variety of materials, typically limited to V-Box spreaders.

- Class 4 Receiver Hitch Mounting with Horizontal and Vertical Adjustment, no bed rail drilling.
- Capacity: 8 cu. Ft., 600 lbs
- 12" Polymer Spinner Disc
- 12-Volt Dual Shaft Gear Motor

- Horizontal Auger Feed Mechanism
- Variable Speed Controller w/Vibrator Switch
- 3'-30" Spread Width
- Vehicle Application: 1/2 Ton & 3/4 Ton Trucks

Part Number: **TGS03** List Price: \$2,127.57 Mail Order: **\$1,369.00**

The TGS03 is now available in RED or YELLOW See Page 25

BUYERS TGS05B SALT SPREADER

The **TGS05B** comes standard with a "Permanent" mount system. This simply means the spreader is bolted to the step bumper and also comes with top support arms that bolt to the top of the Pickups bed rails. Capacity: 10.79 cu. ft./800 lbs. #1 Rock Salt or Similar material.

- Direct To Battery Power
- Material Auger
- Variable Speed Controller

"QUICK DISCONNECT" 2" Receiver mount and "SWING GATE" mount systems.

NOTE: The spreader CANNOT be swung while loaded with salt. It will bend the brackets and possibly the truck's bed rails.

Part Number: **TGS05B** List Price: \$1,699.00 Mail Order: **\$1,224.00**

BUYERS TGS06 SALT SPREADER

- Rotationally molded double-wall construction requires no welded steel framework.
- Heavy-duty 12-volt spreader motor is housed in a sealed motor chamber inside the hopper for extra protection.
- Concealed 80 lb. vibrator.
- Mount directly to 2" hitch receiver or to bumper (includes universal stake pocket attachment and mounting hardware).
- Forward pivoting non-removable lid with self-latching handle.

Check out page 109 for TGS06 Replacement Parts!

Part Number: **TGS06** List Price: \$1,649.00 Mail Order: **\$1,162.67**

BUYERS TGS07 SALT SPREADER

- Class 4 Receiver Hitch Mounting with Horizontal and Vertical Adjustment.
- Capacity: 11 cu. ft. 825 lbs.
- 9" Polymer Spinner
- Dual Shaft Gear Motor (patent pending)
- Horizontal Auger Feed Mechanism
- Variable Speed Controller with Vibrator Switch
- 3 ft. - 25 ft. Spread Width
- Polyethylene/Steel Construction
- Vehicle Application: 3/4-Ton & 1-Ton Trucks

Check out page 110 for TGS07 Replacement Parts!

Part Number: **TGS07** List Price: \$2,472.75 Mail Order: **\$1,699.00**
Part Number: **TGS07RED** List Price: \$2,472.75 Mail Order: **\$1,699.00**
Part Number: **TGS07YEL** List Price: \$2,472.75 Mail Order: **\$1,699.00**

BUYERS TGS02 SALT SPREADER

Newly added to the catalog this year:
Capacity: 3.0 cu. ft.
Spreads: Ice Melt, Bagged Salt

Part Number: **TGS02** List Price: \$1,112.00 Mail Order: **\$819.00**

HYDRAULIC DRIVEN or GAS ENGINE with Carbon Steel or Stainless Steel Hoppers

GENERAL All Hopper Spreaders are completely self-contained, ultra-durable spreader units designed for ice and snow control. This rugged design allows for use with salt, sand and other materials. The complete assembly mounts easily on pickup, dump and platform trucks making it ideal for municipalities, shopping malls, schools, industries, hospitals and private contractors.

MATERIAL HOPPER Electrically welded 12 gauge steel sides sloped at 45° and 12 gauge ends are constructed with channel formed top edges. Each side of the hopper has two 12 gauge vertical supports to add extra strength to the unit. The single lift point on the cross support beam is located at the unit's center of gravity to allow for easy loading and unloading. The floor and sills are constructed of 10 gauge steel, sills have top edges formed down to protect the conveyor chain.

CONVEYOR The conveyor is made of 12" wide all steel Pintle chain with 3/16" x 3/4" cross bars. Chain strength is 11,000 lbs. per strand: 20,000 lbs. total weight. The idler and drive sprockets are 6 tooth cast iron, on 1" and 1-1/8" diameter shafts respectfully.

CONVEYOR GEAR CASE Gear is constructed of aluminum bronze, worm gear is hardened steel and ground. Housing is made of durable cast iron. Gear ratio is 20:1 with 1" input shaft and 1-1/8" output shaft on tapered roller bearings.

SPINNER CHUTE ASSEMBLY A 10 gauge, 12" steel disc with three formed steel fins is connected to 3/4" diameter shaft secured on two pillow block bearings. The spreading material is guided from the conveyor to the spinner plate through an enclosed 12 gauge chute with rod adjustable internal deflectors.

ENGINE Heavy-Duty 10.5 horsepower, air cooled, 4 cycle synchro-balanced Briggs and Stratton gasoline engine. Engine comes equipped with alternator and 12 volt electric starter with in-cab start/stop and electric throttle control. Engine also comes equipped with 12 VDC Electric clutch controlled by three position switch in-cab control box.

ELECTRIC THROTTLE CONTROL Throttle control unit allows for full range of throttle settings, including idle and full choke, via the in-cab hopper control panel. Use of electric throttle control eliminates cable freezing, binding and breaking.

CLUTCH 12 volt DC Electric clutch has a three position in-cab switch for greater control and material economy. It also allows for precise low speed operation and spot spreading.

Now comes with
10.5 HP Engine!

ELECTRONIC THROTTLE CONTROL

(See page 104 for Parts Breakdown.)

DUAL FLOW CONTROL

Electric Unit!

Featuring rugged 7 gauge trough with three point hinged bottom cover that provides easy access to the entire auger assembly. This allows for easy - one-man cleanout access. Unit spreads rock salt or any free flowing granular material or chemical from 4' to 40'. Under tailgate mounting allows normal use of the dump body without interferences from the spreader. Unit comes with material trough, auger assembly, spinner and auger motors, spinner assembly and mounting plates as shown.

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

OEM Plow Wing Kits are manufactured to fit their respective plows. Plow Wings extend the length and improve the overall operating performance of your plow.

WING KIT PLOW ATTACHMENT

**SAVE MORE TIME!
MAKE MORE MONEY!**

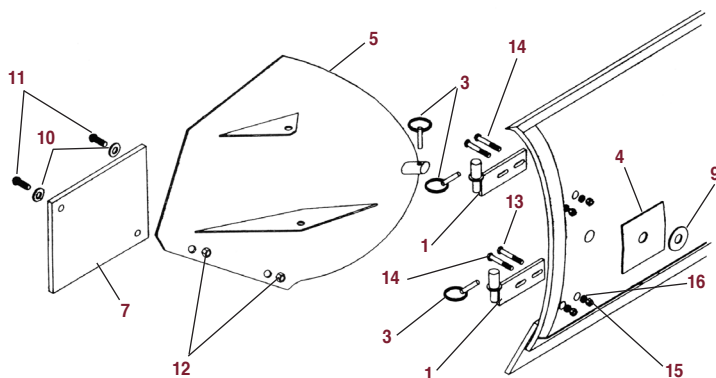

**Pushes
30-40%
more snow!**

**Comes
On & Off In
30 Seconds!**

This wing kit provides an additional 20" of blade width with a minimal increase in plow weight. Plowing time can be reduced from 25-50%. Wings fit 98% of pick-up mounted snow plows. Wings are not recommended for Meyer® 2 meter, Western® 8-1/2', or any brand 9' or 10' plows, except for Meyer® 9'.
(Requires Drilling)

CENTRAL PARTS WAREHOUSE

Snow & Ice Equipment Specialists

Guide sticks were originally designed to aid the driver in locating the end of the Snowplow, thus avoiding running into objects. Other uses include truck bumpers, trailers or any application that requires a sight rod.

CPW is proud to offer the largest selection in the industry. From the snowplow guides shown here, to fire hydrant guides and FAA approved Airport runway markers.

Custom made guides are available. Please fax or email your design and operating requirements.

PLEASE NOTE: The new 5/8" x 8" Universal Curb Guards now come punched with three rows of holes. This allows them to be used as a 6" Curb Guard as well.

STRAIGHT PLOWGUARDS™ are a beefy 1-1/8" thick with 7/8" of a unique high-alloy chrome-carbide weld deposit. This unique combination not only offers an extremely high wear resistance but helps eliminate chipping often found in other wear bars.

Straight PlowGuard™

Jr. PlowGuard™

Heavy Duty CurbGuard™

Super Hvy. Duty CurbGuard™

Universal CurbGuard™

HD CURBGUARDS™ feature a full 3/4" thickness with the unique hard surface, weld deposit on the wrap around corner. Helps eliminate the edge of the cutting edge from cupping and corner and edge wear of the moldboard itself.

SHD PLOWGUARD™-CURBGUARD™ combines the added protection of both the Straight PlowGuard™ and the moldboard protection of the CurbGuard™. A full 1-1/8" thick plus corner protection.

Visit our website at
www.centralparts.com
 for the
**KT-EXTENDER HD SMALL PLOW
 CURB GUARD KIT!**

When the snow flies, your plows need to be on the road – not sitting in the garage having their blades replaced because they've worn out sooner than they should have. Now you can increase your steel blade life by as much as 400%, and carbide blades by 250% by attaching a "PlowGuard™" or CurbGuard™ from CPW.

PlowGuards™ and CurbGuards™ have been proven to promote even blade wear and decrease downtime – thus saving you the costs of early blade replacement. Test and approved for City, State DOT's, and Military use, these PlowGuards™ and CurbGuards™ are **MADE IN AMERICA!** They are guaranteed not to break, and are easy to install. Straight PlowGuards™ simply attach anywhere on the blade using existing blade bolt holes. Wrap-Around CurbGuards™ can be used singularly or as a Left and Right set.

To increase the life of your snowplow blades and reduce the costs associated with replacing blades, choose CPW for all your PlowGuard™ and CurbGuard™ needs.

Please Note: Prices are subject to manufacturers surcharge until further notice.

PSD18	18" Diameter - CCW - 3/4" Thick Base - 6 Curved Fins	\$144.58	\$98.10

DUAL FLOW CONTROL VALVE

SPREADER VALVES

CONTROLS THE AUGER & SPINNER independently but at the same time.

Built-in on/off control and system relief pressure compensated to 30 GPM

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
DFCV30	Dual Flow Control Valve	\$315.89	\$266.15
K-ASK	Replacement Knob	\$54.95	\$49.83

POLY CUTTING EDGES

Benefits of Polyurethane Edges:

- Quieter
- Less Vibration/Less Plow Damage
- Lasts up to 7 Times as long
- Less Labor Changing Blades

Polyurethane Comes in Various Thicknesses - Widths - Hardness Ratings.

The two most common are what is called T1 or T2. Typically a pick-up size plow would use a T1 x 1.5 thickness where as a Municipal 10 foot plow would use a T2 x 2" thickness. T2 is better rated for higher plowing speeds. Urethane is sold by the foot - **please call for pricing.**

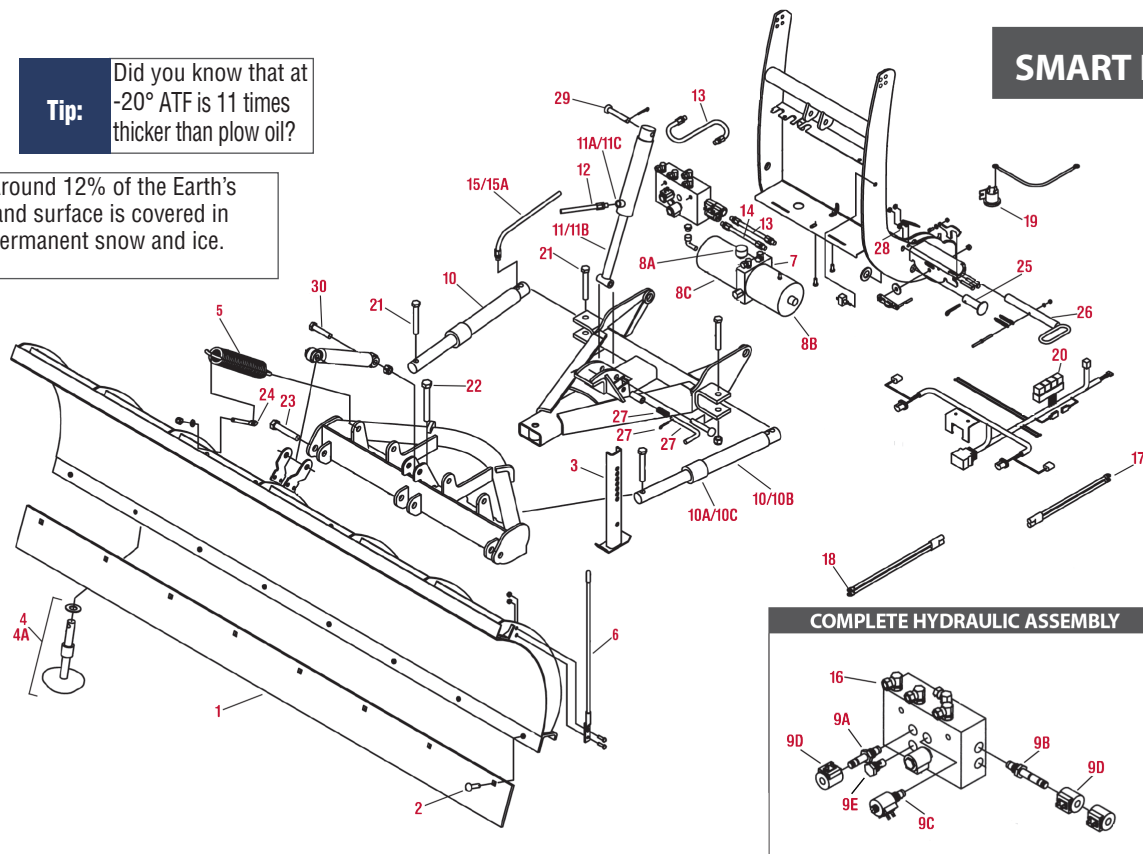

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include those replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

Tip:

Did you know that at -20° ATF is 11 times thicker than plow oil?

Snow Fact:

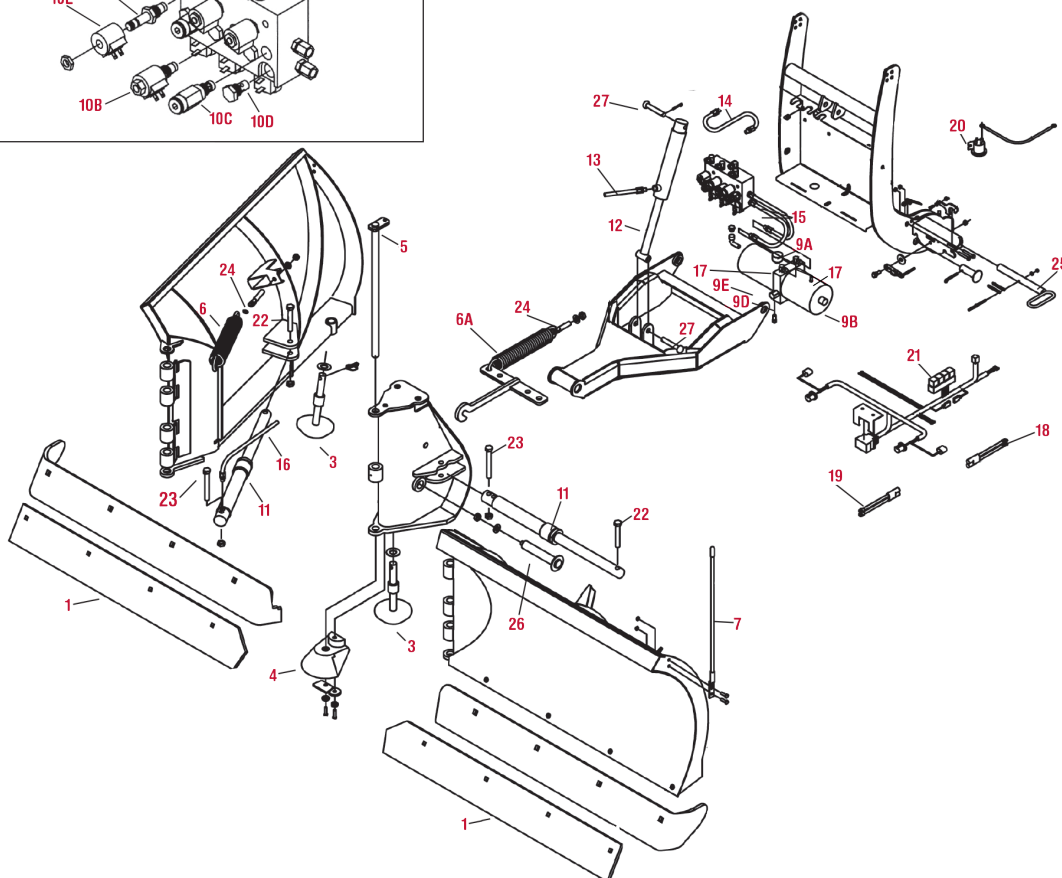

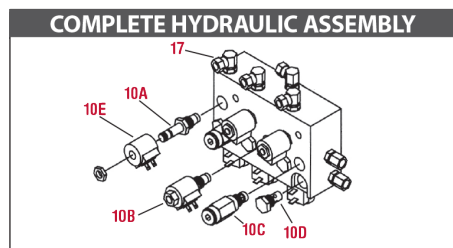

Around 12% of the Earth's land surface is covered in permanent snow and ice.

**SMART HITCH I & II**

Please Note: Prices are subject to manufacturers surcharge until further notice.
The increase will be added to invoice as the Part Number "Surcharge"

IDENTIFY THE CORRECT BASE ANGLE

OLDER "G" & "H" Series Moldboards:

- The "Support Bar" is welded to the **FRONT** side of the moldboard skin.
- The back side of the "Base Angle Ear" is welded about 9/16" from the end of the top leg of the base angle itself.

NEWER "L" & "M" Series Moldboards:

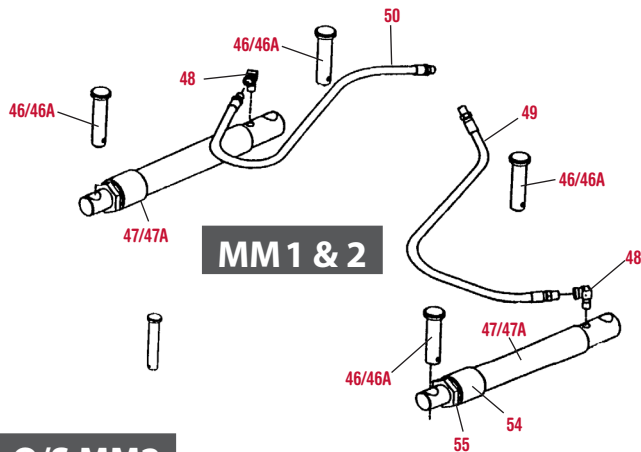

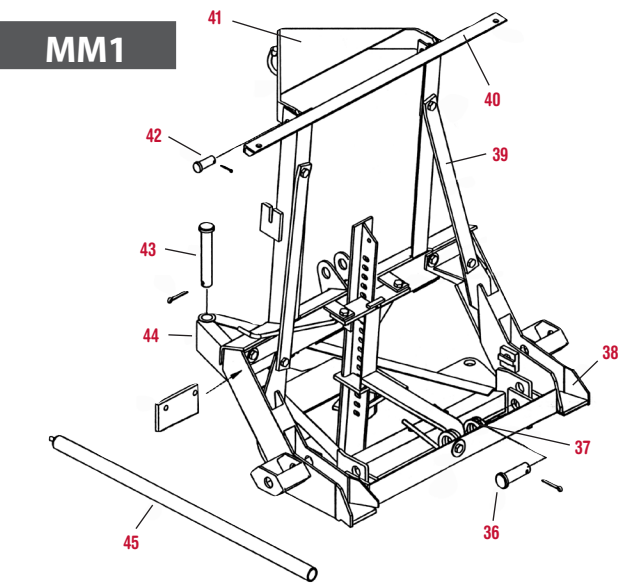

- The "Support Bar" is welded to the **BACK** side of the moldboard skin – see picture.
- The back side of the "Base Angle Ear" is welded at the end of the top leg of the base angle itself – see picture.
- "M" Series moldboards always have 8 ribs and the "L" Series has 5 or 6.

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Please Note: Prices are subject to manufacturers surcharge until further notice.
The increase will be added to invoice as the Part Number "Surcharge"

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

A-FRAME COMPONENTS

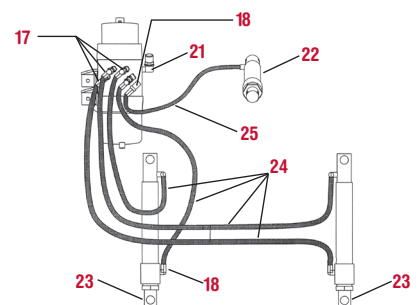

HYDRAULIC COMPONENTS

BLADE ASSEMBLY

HOSE ROUTING

NOTE: Use cushion valve kit to replace all relief valves except in the following instance. If the secondary manifold is marked E2 underneath the bottom cover, use the cushion valve kit 66796 to replace the primary relief valves in the secondary manifold.

Please Note: Prices are subject to manufacturers surcharge until further notice.

The increase will be added to invoice as the Part Number "Surcharge"

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

HUSKY SERIES 7.5 TO 9 FT.

Snow Fact:

Fresh snow is an excellent insulator. 10" of fresh snow with a density of 0.07", 7% water, is approx. equal to a 6" layer of fiberglass insulation with a R-value of R-18.

MEYER ROAD PRO 9 FT. TO 10 FT.

Please specify E47 or E60.

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

CENTRAL PARTS WAREHOUSE

Snow & Ice Equipment Specialists

OLD STYLE BLADE ASSY 6.5 TO 8 FT. (1981 and Older Plows)

**Tip:**

The two outside springs on the old plows angle upward, not straight up.

Tip:

Springs go straight up.

NEW STYLE STANDARD & ULTRA MOUNT BLADE 6.5 TO 7.5 FT. (1982 and Newer Plows)

Please Note: Prices are subject to manufacturers surcharge until further notice.

The increase will be added to invoice as the Part Number "Surcharge"

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

AUTOMATIC TRANSMISSION FLUID (ATF) OR PLOW OIL

Today's power packs are much more sophisticated than the old "Cable" controlled valving used on older style plows. Power packs today use valves called "Small Orifice" cartridge valves or "Small Orifice Poppet" valves. Although this type valving is very reliable, it is more susceptible to dirt or debris than the old manual valves.

This reason alone is why all of today's manufacturers **HIGHLY** recommend **YEARLY CLEANING and FLUSHING** of the entire hydraulic system. It is recommended this type service be done just prior to the start of the new plow season. Given the heat of the day and the cool of the evenings, summertime can build up moisture in the oil reservoir adding to the problem!

Today's oils have been formulated specially for the electric valving of today's power packs. Not only does it have lower freezing points, but it is a much cleaner oil than ATF and maintains its viscosity though a much larger temperature range. ATF in today's power packs will work but as temperatures drop, it tends to thicken and jam the valves.

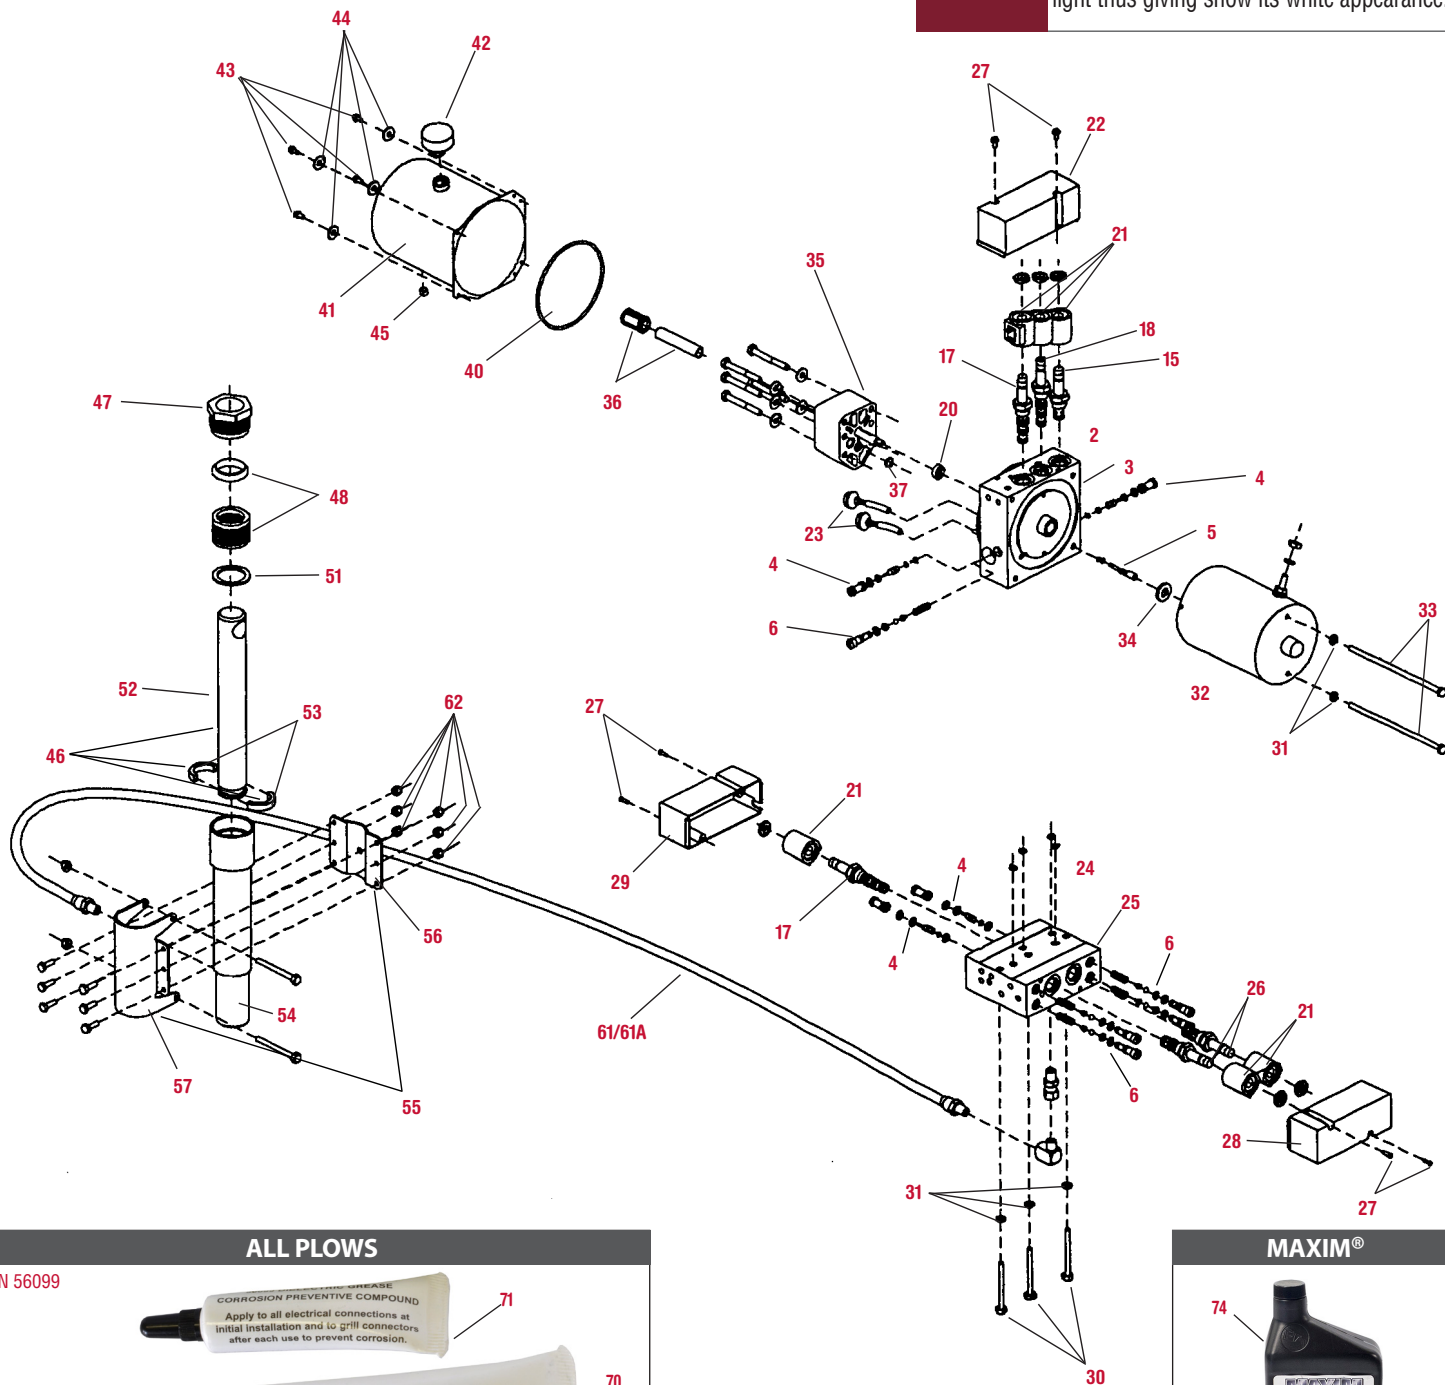

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

HYDRAULICS

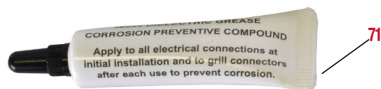

Snow Fact:

Snow is actually colorless. What little sunlight is absorbed by snow is absorbed uniformly over the wavelengths of visible light thus giving snow its white appearance.

Snow Fact:

A blizzard consists of 3 things:
You can't see for 1/4 mile.
Winds are always 35 mph or more.
Storm must last at least 3 hrs.
*A Blizzard is also a
delicious ice cream treat.

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

SALTER GUARD - A CPW EXCLUSIVE

CPW's EXCLUSIVE Salter Guard!

Designed to help protect your expensive V-Box Salter Chutes from mild impacts and snow drifts at low speeds. Helps prevent costly downtime due to broken or damaged spinner assemblies. Spend more time salting and less time repairing.

Salter Guard is a fraction of the cost of a replacement chute assembly. Saves your salter and your wallet!

- Expands to accommodate most V-Box Salter chutes
- 44" Wide Opening
- Expands from 19.25" to 26.25" Inside Depth
- Powder Coat finish
- Includes Reflective Tape for Higher Visibility
- Slides into existing 2" receiver hitch (not included)
- Requires standard receiver hitch pin (not included)

*Not for use on tailgate spreaders

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

** Only applies to Fisher Poly Caster, Western Tornado & Blizzard Ice Chaser

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

Please Note: Prices are subject to manufacturers surcharge until further notice.

The increase will be added to invoice as the Part Number "Surcharge"

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

Please Note: Prices are subject to manufacturers surcharge until further notice.
The increase will be added to invoice as the Part Number "Surcharge"

DNA = Does Not Apply *This part sells for a higher price than listed - please call for exact cost. **Does NOT include spinner disc.

NOTE: We have made every effort to correctly identify our replacement parts for these OEM Spreaders. Please realize that some parts are Serial Number Sensitive. It is your responsibility to supply us your spreaders S/N. If it is not available, the part might be identified by physical dimensions. Please be prepared to give us the MAKE, MODEL and SERIAL NUMBER or a physical and dimensional description of the part. Although this image applies to most modern day V-Box Spreaders, your actual part might look slightly different. Bearings are an example and pulleys verses sprockets is another. BOSS V-Box replacement parts have been discontinued, however, CPW continues to stock many items. Call or visit our website at centralparts.com.

Snow Fact:

The record for the world's largest snowman was set in 2008 in Bethel, Maine. The snow-woman stood 122' 1" in height, and was named in honor of Olympia Snowe, the senior Republican U.S. Senator representing Maine.

TIPS ON IDENTIFYING YOUR HYDRAULIC MOTOR:

For years, all spreader manufacturers used standard versions of hydraulic motors to operate the spinner and auger. These motors all had 1" diameter shafts with 1/4" keyways and 1/2" NPT (National Pipe Thread) ports. The only other difference was the mounting flange (2-bolt or 4-bolt) and the cubic inch displacement which can be calculated by the thickness or width of the "Gerotor". The two line drawings to the right show a typical 2-bolt and 4-bolt flange. Please note the solid black section toward the end of the motor – that is the Gerotor. The thickness or width of this determines the motors cubic inch displacement. As the chart above the pictures indicates – the Gerotor widths range from 1/4" to over 2".

Today's manufacturers may now use a 1" shaft with 1/4" keyway or a 1" shaft with a .40 cross hole thru the shaft or a Splined Shaft as illustrated in the top picture. They also may use what is called a "Boss O-Ring" thread port that by appearance looks like pipe thread port. The Boss O-Ring thread is actually a different pitch of thread and also has a machined surface for the O-ring of the hydraulic fitting to seal against. The industry feels this is not only a better sealant against leaks but is a lot easier to install the fitting and align it to the hose.

Most motor manufacturers have an identification plate riveted to the motor showing their P/N. For example, a Charlyn Motor would have a number like 101-1001-009 on it where a White Motor would be listed as a RS03010100. This number is preferred if available.

HOW TO MEASURE EXISTING CHAIN IF THE OEM P/N IS NOT AVAILABLE

Please Note: Prices are subject to manufacturers surcharge until further notice.
 The increase will be added to invoice as the Part Number "Surcharge"

N/A = Not Available **PLEASE NOTE:** For larger spreaders please verify chain dimensions using guide below. Due to the large variances of Salt Spreader chains, we do not stock all the sizes we offer. Please allow 7-10 days delivery for special orders.

Enter Sizes Here						
"A"	Center to Center - This is a critical dimension. It is best to measure from Inside of link to outside of link as shown					
"B"	Bar Type or Size:	1/4" x 3/4"	1/4" x 1"	1/4" x 1.25"	1/4" x 1.5"	3/8" x 1.25" 3/8" x 1.5" 1/2" X 1.5"
"C"	Bar Spacing:	Every Link	Every Other Link	Every Third Link	Every Fourth Link	
"D"	Pitch Size:	662 = 1.664"	667H = 2.313"	667X = 2.25"	D88K = 2.609"	Maybe "STAMPED" on side of the links
"E"	Pin Diameter:	.0281"	.312"	.437"	.437"	Measure "OD" of Pin Diameter
"H"	Pintle Height:	0.720"	0.875"	0.937"	1.062"	Measure the "Height" of the side wall of the Pintle
"F"	Wall Thickness:	.125"	.125"	.170"	.200"	Side Wall Thickness - Measure on a flat area
"L"	Length of conveyor bed. This is best measured from the Center of IDLER SHAFT to the Center of DRIVE SHAFT.					

Please Note: Prices are subject to manufacturers surcharge until further notice.

The increase will be added to invoice as the Part Number "Surcharge"

5580CA-VM	15" LED MINI-BAR	\$395.20	\$260.00

15" BLAZE ROTATING MINI-BAR

Amber, Clear & Red

- Efficient design combining silicon belt with stainless steel bearings for longer life.
- Low profile lightbar available in two mounting styles: Flush and Vacuum-Magnet.
- Polycarbonate low profile lens.
- Two 55 watt halogen bulbs.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
5135A	15" BLAZE ROTATING MINI-BAR	\$248.94	\$163.77
5135A-VM	15" BLAZE ROTATING MINI-BAR	\$306.51	\$201.65

4 CORNER STROBE KITS & LED STROBES

4 CORNER STROBE KITS

- 1 - 9460 - 4 head Remote Power Supply - Sealed Unit can be mounted Outside of the Vehicle! Kit can be set to "Double Flash or Quad Flash Patterns".
 - 4 - 9001 - 1" plug-in - 2 Clear Bulbs, 2 Amber Bulbs. Available in 2 Corner or 4 Corner Kits.
 - 4 - 9915 - 15' Cables.
- Pricing is based on the 9460-1 - 4 Corner Strobe Kit.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
9460-1	4 CORNER STROBE KITS	\$519.42	\$341.73
9460-17	4 CORNER STROBE KITS	\$427.66	\$246.73

4 CORNER STROBE POWER SUPPLY ONLY

- Fully encapsulated power supply.
- Power supply base is die-cast aluminum.

We have more
ECCO LIGHTS on our website at:

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
9460	ECCO Remote Strobe 4 Channel Power Supply Only	\$364.50	\$239.80

HIDE-A-LED

9010A

- Four 1-watt high intensity LEDs.
- 16 Flash patterns.
- Synchronize up to 20 units simultaneously or alternately.
- In-line waterproof driver module eliminates the need for a remote power supply.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
9010A	HIDE-A-LED	\$175.72	\$95.83

9011A

- Same features as 9010 Series
- Utilizes wide angle optics to maximize light casing reflection.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
9011A	HIDE-A-LED	\$134.96	\$88.79

9013A

- Six high intensity LEDs.
- 16 Flash patterns.
- In-line waterproof driver module eliminates the need for a remote power supply.
- Synchronize up to 20 units simultaneously or alternately.
- Wide angle optic maximizes light casing reflection.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
9013A	HIDE-A-LED	\$142.50	\$93.75

SINGLE LIGHTING SYSTEMS

360° REVOLVING BEACON LIGHT

Amber

- 55 watt halogen bulb
- Economical style beacon available in several mounting styles.
- Efficient design combining silicon belt with stainless steel bearings for longer life.
- Thread-on lens secures with a single

screw.

- Vacuum-Magnet mount recommended for use up to 65 MPH.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
5813A-MG	SINGLE LIGHTING SYSTEMS	\$98.33	\$64.69

SINGLE BULB - LOW PROFILE STROBE

Amber, Blue, Clear & Red

- Flush mounted without removing lens.
- Double flash.
- Field replacement flash tube (no tools required).
- Designed for mounting in areas where a compact profile

is required.

- UV stabilized polycarbonate thread-on lens allows user to change the flash tube without tools.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
6550A-VM	SINGLE LIGHTING SYSTEMS	\$185.23	\$121.86

LOW PROFILE STROBE

- Compact size for easy storage when not in use.
- Economical light will cover low intensity application.
- Factory installed magnet and 15' straight cigarette cord with plug.
- Vibration resistant design featuring reinforced nylon base and polycarbonate lens.

- Integral flange, internal and 1" pipe mounting.
- Designed for mounting in areas where a compact profile is required.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
6410A-MG	SINGLE LIGHTING SYSTEMS	\$92.42	\$60.80

LED STROBE BEACONS

7940 SERIES

- Class II Light.
- Eight 1-watt LEDs provide high intensity light output.
- Double or quad flash operation with hi/lo intensity control.
- Die cast aluminum base is coated against corrosion and designed for vibration resistance and heat dissipation.
- Permanent mount models are sealed in epoxy for added protection.

- Thread-on polycarbonate lens allows easy flash mode selection without tools.
- Reverse polarity, voltage spike and surge protected.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
7945A	LED STROBE BEACONS	\$116.76	\$76.81
7945A-VM	LED STROBE BEACONS	\$145.26	\$95.56

7960 SERIES

- Class I Light.
- Sixteen 3-watt LEDs provide unrivalled flash intensity.
- Die cast aluminum base is coated against corrosion and designed for vibration resistance and heat dissipation.
- Double or quad flash operation with hi/lo intensity control.
- Reverse polarity, voltage spike and surge protected.

- Thread-on polycarbonate lens allows easy flash mode selection without tools.

7960A-VM	LED STROBE BEACONS	\$285.00	\$187.50

LED DIRECTIONALS

3500 SERIES

- Long, maintenance free service life and low amp draw benefits of LED technology.
- SAE J595 Class I (A,B,C,R), California Title 13 (A,B,R).
- 24 1-watt high-intensity LEDs provide exceptional warning.
- 16 flash patterns including single, double, triple, quad, deci and cycle all synchronizable with additional 3510s and all Hide-A-LEDs
- In-Line waterproof driver module allows for premium functionality and compact size.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
3510A	LED DIRECTIONALS	\$130.59	\$85.91

3800 SERIES

- Comprises 42 LEDs with individual reflectors.
- Epoxy encapsulated electronics for environmental protection.
- High intensity quad flash light output.
- Mounting gasket included.
- Tough, clear polycarbonate housing.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
3811A	LED DIRECTIONALS	\$94.15	\$61.94

BACK-UP ALARMS – D.O.T. RECOMMENDED!

97 db(A) BACK-UP ALARM

- Compact size and universal mounting maximize location options.
- ECCO reliability in a cost-effective back-up alarm.
- Sealed in epoxy against dust, moisture and vibration.
- Self-grounding: no grounding wire needed for installation.
- Steam cleanable and pressure washable.
- Voltage spike and surge protected.

PART NUMBER	MODEL	LIST PRICE	MAIL ORDER
510	Alarm: Back-up, 97dB, 12VDC	\$35.09	\$23.09
575	BACK-UP ALARMS - D.O.T. RECOMMENDED	\$56.35	\$37.08

DF532	BACK-UP ALARMS 102 dB- D.O.T. RECOMMENDED	\$73.51	\$48.36

*ALL these alarms meet SAE J994 Certification.

SMART ALARM® INDUSTRY LEADING BACK-UP ALARM

- ECCO's most popular and cost-effective Smart Alarm.
- Sealed in epoxy against dust, moisture and vibration.
- Steel housing and construction for rugged applications.
- Designed to compensate Sound with the surrounding ambient noise.
- Automatically adjusts volume to exceed Noise Level.

Timbren Suspension Enhancement Systems are available for most all pick-up trucks – front and rear as well as larger trucks. These kits are easy to install and require no special tools. These maintenance free systems add up to 1,000 lb. load carrying capability to the front end of pick-up and up to 6,000 lbs. to the rear. Whether you have a 1/2-ton, 3/4-ton or 1-ton pick-up, if you plow snow, you need Timbrens for the front. If you have a Salt Spreader, or are a landscaper that tows a trailer you need Timbrens for the rear. You'll feel the added stability immediately – **We guarantee it!**

The use in this catalog of the names of original equipment manufacturers ("OEMs") and part numbers which may be similar to theirs is for the assistance of our customers in identifying the proper replacement parts. The items on this page include both replacement parts which CPW manufactures or which may be manufactured for CPW, as well as products manufactured by the named OEM. The parts identified above with an "AM" after the part number are manufactured by or for CPW, and it is not implied that these parts are the products of the named OEM. Those products listed with the term "OEM" are the products of the named OEM.

Please Note: Prices are subject to manufacturers surcharge until further notice.
The increase will be added to invoice as the Part Number "Surcharge"
